

RE: Rules & Regulations Implementing the Telephone Consumer Protection Act of 1981 - CG Docket No. 02-278.

I work for a teleservices company and am concerned the proposed rule changes will limit my company's ability to operate so I and other will lose our jobs. Your efforts should be focused on enforcement of current laws and stopping calling by those that should be stopped. My job here is extremely important to me and my family's well-being.
